Education

- 2024–present **Msc on Applied Mathematics**, *Unicamp*, Campinas
Doing research focused on post-quantum cryptography.
- 2022–2023 **Data Scientist**, *Data Science MBA*, USP São Carlos
Studied state-of-the art techniques in Data Science, and how to apply them on real-world projects, under a scholarship.
- 2016–2021 **Bachelor on Applied Mathematics and Scientific Computing**, *USP*, São Carlos

Professional Experience

- 2026–current **Analyst of development**, *UHedge Trading Solutions*, Campinas
Work as a fullstack developer and financial analyst for the main product of UHedge, namely a hedge managing platform. My main roles include checking the calculations are made correctly and delivering the adequate value, as well as building the front and back end infrastructure to deliver them. Techs used: javascript, html, React, Python, Django.
- 2022(may)– **Developer**, *Profusion Embedded Systems*, Campinas
- 2023(may) Worked on the development of multiple products, using technologies such as React, Apollo, Typescript, Kotlin and others.
- 2021(dez)– **Research and Development**, *Samsung Research and Development*, Campinas
- 2022(may) Worked with Samsung's R&D Projects, mostly related to some of its health products. Techs used: python, sklearn, Tensorflow, C#, SQL, Java
- 2021(march)– **Data Scientist**, *Monitora Tec*, São Carlos
- 2021(dez) Worked together with a team at the Serasa Experian company in devising new solutions to their analytics problems, by means of data science. Techs used: python, sklearn, Tensorflow, SQL

Other Experiences

- 2026 **Participant of the Quantum Tech school of quantum computing, where, due to my good performance, I was chosen to participate at the Quantum Immersive as well**, *Recife*, Pernambuco
- 2026 **Participant of web3 course, where I learnt to work with smart contracts, programming with block chain and virtual reality**
- 2025 **Presenter of work on neural lattice reduction at the 1st IMECC Congress**, *UNICAMP*, Campinas
- 2024 **Presenter of workshop “Interactive theorem proving in Lean 4” at the mathematics biennial**, *UFSCar*, São Carlos
- 2024 **Presenter of Contos Babel podcast, where I talk about diverse themes of mathematics**, Campinas

- 2018 **Participant on Google Summer of Code, on EusLisp project with JSK of Tokyo University**, *Google/JSK lab*, (work done online) São Carlos
- 2016–2017 **Researcher on Constraint Logical Programming**, *USP*, São Carlos
Development of research on Constraint Logical Programming, with a focus on optimization problems.
